About us

Our history begins in 1986, where our Ex-Chairman (L.A. Tanwar) along with a number of dynamic individuals began with a single container of wastepaper materials. Since then, our team has grown steadily over those four decades, and now consists of over 500 employees providing a complete range of services in commercial and industrial recycling as well as in Industrial dismantling and demolition.

DS's is a diverse and comprehensive recycling group of companies committed to the highest standards of quality and services. Making full use of cutting-edge technologies and effective management, the company fulfils its philosophy of environmental stewardship while maintaining a competitive advantage in global markets. DS's success derives directly from the quality systems in place for customer satisfaction, which drives us toward ever higher standard of service, expertise and professionalism. Our corporate values include a commitment to delivering a high calibre service from our first contact to exceptional end service benefits, with complete transparency throughout.

Our team ensures every requirement is met with the best quality and in a timely manner, strengthened by the ongoing support of an efficient operating system, well trained workforce and the most advanced technology in the field. We continue to take pride in serving as a benchmark for the region and industry as a whole. DS's continual investments in

improving its systems to ensure our operations use the optimum automation the recycling industry can offer have delivered exceptional performance gains while maintaining client value. Our goal is always to optimize production efficiencies. DS believes that recycling has tremendous opportunities for growth over both the short and long term. As part of our long-term strategy, DS is focused on expanding our global presence and customer base, bringing our high standards of service to new markets.

DS operates a strong, customer focused approach, including diligent conformance to HSE standards and a constant quest to maintain the highest standards in everything we do. This has enabled the company to sustain leadership in its major lines of business over the last four decades. DS's top priority is to retain a secure and clean environment, contributing to economic growth, social progress and promoting sustainability. Our devoted staff are well trained to adhere to safe operational procedures and standards. DS has a safety and Green eco-friendly oriented culture, so the team works hard to keep processes clean, ecologically sound and safe.

DS culture promotes a sense of respect for all who contribute to everything we do, continually seeking new ways to build and maintain a pleasant work environment that motivates our employees. DS's operations are strategically located in Saudi Arabia.

Vision

To give the global community a clean and secure environment by reducing waste and converting it to ready-to-use resources and promote both individual and corporate responsibility.

Mission

“Reduce Waste” and “Recycle-Reclaim” earth resources and produce high quality material for the industrial sector worldwide.

Our Deep Rooted Values

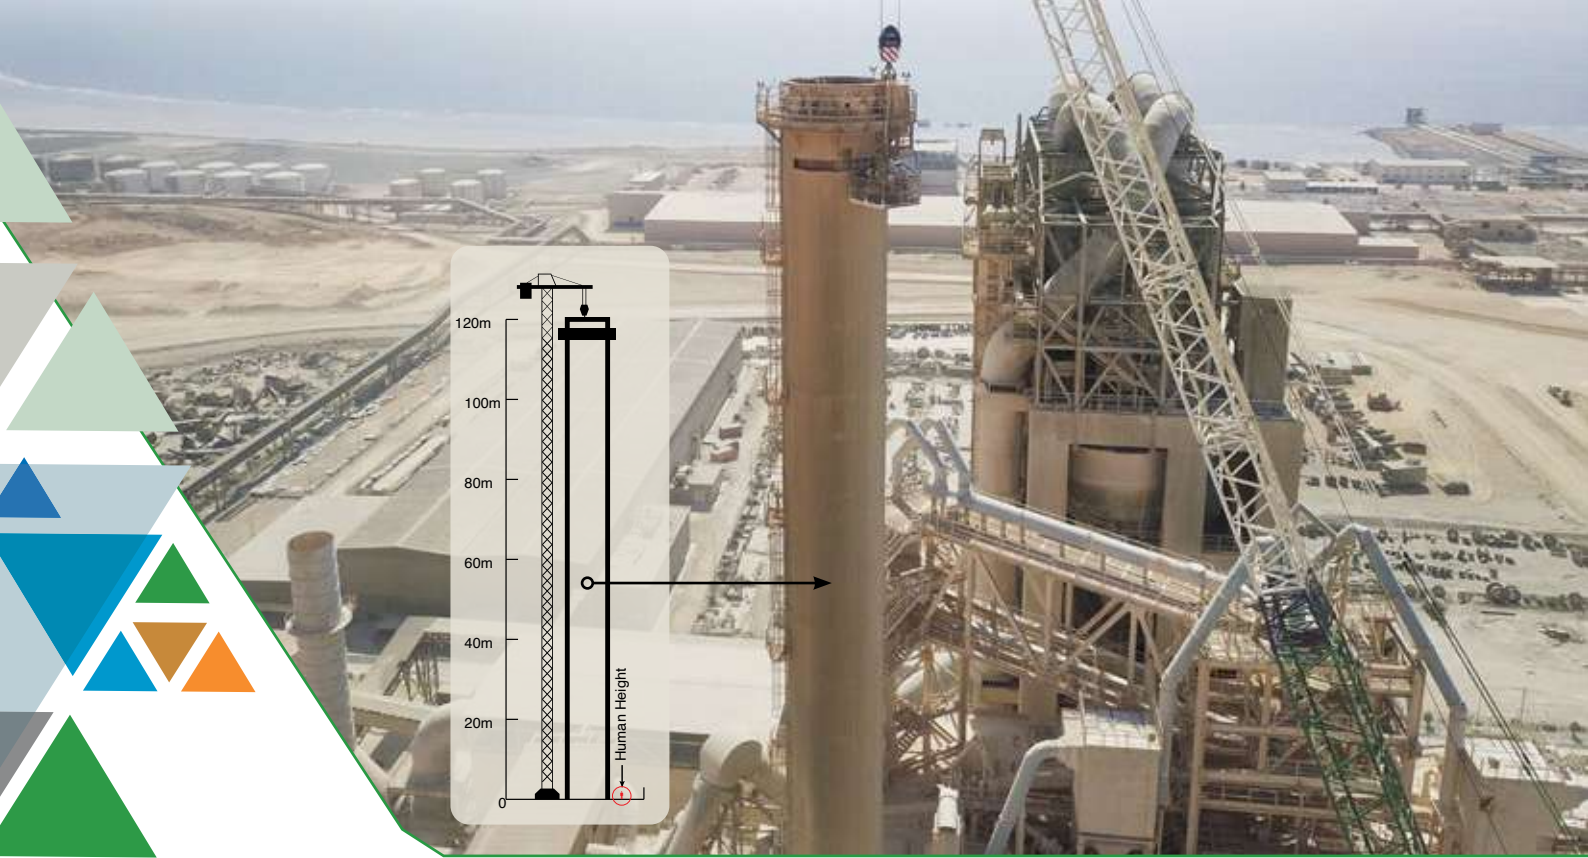

Honesty

Ingenuity

Respect

Al Yaqeen Advanced
Trading Company — — —

Industrial Dismantling & Demolition Ferrous & Non-ferrous Metal Trading

Al Yaqeen Advanced Trading Company was established in 2019. The Company has been constantly exporting products to many countries and has established several subsidiary companies outside of KSA to facilitate trade with its buyers. It has become one of the most reliable International Trading companies as an Exporter and Importer dealing with a range of commodities in large volumes, building trust and strong working relationships with its valuable buyers. The company has built a team of highly experienced and competent professionals including both Nationals & Expats. The Group is extremely versatile and maintains stringent ethical standards in every activity and for every client. Al Yaqeen Advanced Trading Company is committed to the preservation and protection of our natural resources and the environment.

Our wide range of recyclable items (Metals & Non-Metals) meet all international standards and are the source of supply to major ancillary companies of both the automotive and building construction sectors across the world. This includes major customers in Japan, India, the Middle East, and many more. We have a technically proficient and highly efficient team which looks after production planning, quality and process control, maintenance alongside project and new developments, each being handled by highly experienced and qualified engineering professionals.

Achievements

1. Dismantled 120 meters of chimney from the live operations/live adjacent structures without affecting the Plant operations.
2. Demolished 8 Silo's tanks of 32 meters height, attached to the live operations/live adjacent structures without affecting the Plant operations.
3. Dismantled and removed APC system and cyclones and associated structures from the live operations/live adjacent structures without affecting the Plant operations.
4. "ZERO ACCIDENT" achieved during 2 years of Demolition & Dismantling of Obsolete Structures at Cement Plants.
5. "Satisfactory & Appreciation Customer's Job completion Certificates" received from Cement Plants.
6. Ranked No.#1 in submission of Technical Reports for the job of "Demolition & Dismantling of Obsolete Structures at Cement Plants".

Al Yaqeen Advanced Trading Company is a technology driven business enterprise that has leverages cutting edge technology to offer various types of recyclable material (metals & non-metals) that are durable, reliable and serve diverse industrial purposes. Our manufacturing plant is strategically located in Jeddah, Kingdom of Saudi Arabia. We are a growth-oriented company that monitors technological innovations to set up highly advanced production techniques within our trading unit. We attach significance to eco-friendly industrial practices throughout our business processes to maximize sustainability in our operations.

The company has built a reputation of supplying a wide range of quality scrap (Metals & non-metals) that are in complete compatibility with International Standards, with all products able to be customized as per the requirement of any customer. We operate with a dedicated Quality Assurance team, using highly skilled laboratory operators to look after the quality of the material and maintain

the required parameters to ensure customer satisfaction and consistency. Al Yaqeen Advanced Trading Company uses industry leading equipment, including Spectrometer/METAL ANALYSERS and SOP to maintain the quality of the material. Our management team actively participates in the quality process and formally reviews progress in improving performance on a monthly basis.

The company is also undertaking projects for demolition and dismantling of facilities. The company has completed many such projects, delivering exceptional outcomes on time. With the team having completed high-profile projects, including "Yanbu Cement Company", "Saudi Cement Company", "Arabian Cement Company" and many more, our team has extensive experience and insight to deliver successful operations in any situation. That experience covers every aspect of delivering highly contaminated and technical demolition projects, including decommissioning and de-planting, bridge removal and other demolition & dismantling of critical and serious obsolete structures from the live operations. By utilizing innovative methods and the most appropriate plant and equipment for each project, we provide, comprehensive, efficient, and value-led solutions for every need. The site management, operators and labourers are all trained to the highest standards and fully conversant with working on hazardous projects, along with the more traditional demolition operations (Industrial mostly). Our workforce is dedicated to providing the highest levels of service within the industry, delivering projects safely, on time (very often ahead of schedule) to the client's complete satisfaction, with as minimal impact to the environment as possible.

شركة دايموند ستار العربية للصناعة
Diamond Star Arabia Industrial Company
تدوير النفايات Waste Recycling

Ferrous & Non-ferrous Metal Recycling

Diamond Star Arabia Industrial Company provides a comprehensive range of scrap management and technically advanced scrap handling services for all types of industry accounts throughout metropolitan Jeddah and the Kingdom of Saudi Arabia. One of the leading members of the Diamond Star Group of Companies, the Diamond Star Arabia Industrial Company has a highly experienced and skilled team of professionals including both Nationals & Expats.

The Group is extremely versatile and maintains stringent ethical standards. Maintaining a commitment to the preservation and protection of our natural resources and the environment, we are certified by ISO 9001, ISO 14001, OHSAS 45000, and we are in process of achieving certification with ATF 16949. Our wide range of aluminum alloy ingots are crafted in International standard sizes, and are essential materials for major ancillary companies within the automotive sector across the world, in particular Japan, India, Middle East, and many more.

We have a highly technical and efficient team delivering exceptional production planning, quality and process control, maintenance and

project and new developments, each being handled by highly experienced and qualified engineering professionals. Diamond Star is a technology driven business enterprise that has acquired ultramodern machinery and systems to offer aluminum alloy ingots that are durable, reliable and serve diverse industrial purposes.

Our manufacturing plant is strategically located in Jeddah, Kingdom of Saudi Arabia. We have an installed capacity of 24000mt. per annum (2000mt. per month), this volume is critical for meeting the ever-increasing demands of the automobile industry. As a growth-oriented company, we continually evaluate technological inventions to ensure our highly advanced production techniques within our ingots manufacturing unit retain cutting edge performance.

Our commitment to the world around us means that everything we do is built on eco-friendly industrial practices that lower our environmental impact without compromising performance. Diamond Star Arabia Industrial Company recycles scrap Aluminium to produce alloy ingots. Seeing the current market demand the Diamond Star Arabia Industrial Company is planning for future expansion to raise output by 54000mt. per annum (4500mt. per month).

We manufacture Aluminium alloy ingots such as LM2, LM6, LM25 / A356.2, LM9, ADC12, AISi132, AC4B, AK5M2 etc. for gravity (GDC), pressure (PDC), low pressure (LPDC) and sand die-casting. We are capable of producing Aluminium alloys to international specifications such as IS, BS, JIS, DIN and ASTM as well as proprietary alloys as per our customer needs.

We have an enviable reputation for manufacturing and supplying a wide range of high-quality alloy ingots that meet all International Standards and any customisations as per the customer may request.

Committed to maintaining the highest quality at all times, we have a dedicated Quality Assurance team with highly skilled Laboratory Operations to monitor the quality of the material and maintain the parameters to ensure customer satisfaction.

We use the industry leading Spectrometer from Germany and SOP to maintain the homogeneity of the material.

Additionally, internal indicators of performance have been developed for all business processes and for individual departments as part of the quality planning systems, and these are monitored and reviewed regularly for "CONTINUAL IMPROVEMENT".

As such opportunities are tracked, related teams are involved and related procedures with corresponding responsibilities and schedules for implementation are provided. Management actively participates in the quality process and formally reviews progress in improving performance on a monthly basis.

شركة مصنع نماء الانجاز للصناعة
Namma Al Enjaz
Factory For Industry Company

Plastic Recycling

Namma Al Enjaz is a technologically advanced factory that sorts, cleans, grinds and recycles plastics, followed by melting them at high temperatures until small granules are formed so they are ready for sale to meet our domestic and international customers' requirements. Specializing in Low Density polyethylene (LDPE), High-Density polyethylene (HDPE), polypropylene (PP), and other plastics from industrial wastes. As the worldwide demand for eco-friendly products increases, our plastics recycling team can purchase your plastic waste and processes it for end users.

شركة
مدينة الأخضر الدولي للتجارة
Green City International
Trading Company — — —

Waste paper Recycling & Trading

Greencity International is one of the leading recycling and management companies in Jeddah, Saudi Arabia. The company has four decades of professional experience as a supplier and collector of waste paper.

At this facility 'clean baled' waste paper covering a range of different varieties to suit client needs, including corrugated material, box board, millboard, newspaper cuttings, tissue papers and mixed office waste, in addition to other paper products. All are efficiently processed with our advanced equipment and robust infrastructure and processes, designed from the ground up to handle large volumes.

We provide a comprehensive recycling solution to corporate clients, businesses and government bodies nation-wide. We offer one-off or contracted regular collection services with a wide range of collection options to choose from for every situation or need. Quality products coupled with prompt and reliable service for customers is our priority. The Company continually seeks improvements and efficiencies for quality and service we offer through dedicated teamwork and refined business processes. Our quality control measures are monitored by a team of technical experts having wider knowledge in Pulp and Paper technology.

We take pride in our initiatives to successfully minimize waste from going into the landfill, reducing environmental footprint, and creating changes to make our world more sustainable. With our passion for recycling, we will continuously improve our recycling process and re-invest into our business in order to reach our ultimate dream of making a world without landfills.

مصنع نعمة الطيبات للمنتجات الغذائية
Niemat Altayibat Food Products Factory

Food Products Trading

Niemat Altayibat was established in 2019 in Saudi Arabia, and specializes in contemporary packaging, processing all kind of Dates and Fruit including for local as well as international customers.

We select the finest ORGANIC Dates that have a proven and desirable taste for maximum desirability. All the Dates are directly sourced from certified farms using approved agrarian, social and ecologically sustainable methods.

In addition to date supply, we strategically import several vegetable and fruit ranges from all over the world by Air and Sea. All our suppliers are certified producers and growers who meet the highest standards in their respective countries.

We control quality at every step of every process and have strong commitment towards consistent

and reliable quality for our valuable customers. Our integrated quality system guarantees safe & quality products all year round.

Our experience in handling bulk orders and meeting crucial schedules help us in efficiently meeting consumer needs and providing the highest quality at very competitive pricing. In addition, we provide comprehensive packing services to local businesses, and also help them in marketing their products in a more effective way.

Our facilities are equipped with a modern cold storage system along with vehicles to carry and distribute goods to our customers. We use the latest hygienic refrigerated vehicles for supplying highly perishable fruits and vegetables. Our team ensure that all handling is done in a suitable and hygienic way.

It is our goal to introduce new products to meet with the fast-changing lives and needs of our global consumers, and to be accepted worldwide as a producer of high-end premium products globally.

We will expand our production capabilities so that each one is fully integrated and together they form the Niemat Altayibat Factory, to provide the finest production facility in Saudi Arabia.

Diamond Star Trading FZC

Our International Trading Companies

DIAMOND STAR TRADING FZC, was established in 2012. The company has been constantly trading around the world and build subsidiaries outside of UAE to facilitate trade with its buyers.

To facilitate trade with our international clients DS group has established overseas companies that have become reliable international Trading companies as an Exporter and Importer dealing with different commodities in large volumes. We work hard to build trust and robust working relationships with all our valuable customers by providing enhanced, exceptional quality services and pursuing business through innovation and advanced technology to attain profitability.

Our management team has enacted a policy of emphasizing quality in everything we do, recognizing the importance of managing our supply

chain as a trading company. We utilize the highest quality tools, equipment and processes to achieve customer satisfaction, conducting daily reviews and assessments to increase the quality of the overall Trading Group and achieve and maintain a higher quality for all outcomes within our cooperative companies.

We have overseas offices in:

- Saudi Arabia
- Singapore
- China
- India

This enables us to build reliable and effective supply chains across the world, including both procurement and sales.

As professionals, we handle a diverse range of products, covering Trading of:

- Metal Scrap (Ferrous and Non-Ferrous)
- Plastic (Processed Granules / washed & Crushed waste Bundle).
- Waste-paper (All kinds of waste-paper).

Quality control is crucial for all our operations to maintain consistent quality of product and service. We strive to improve the overall quality - which includes not only product quality but also customer experience and employee quality - to connect with our clients. Further, we work hard to deliver the quality assurance and customer satisfaction that represent the highest standards in the industry.

We have a unique network that enables us to provide custom solutions to meet the precise needs of each unique client. Our expert staff & associated processes build trust with customers and improve overall satisfaction, aiding deep market penetration.

We provide professional services internationally in sales and purchasing in the Middle East, Far East, South Asia Europe and America.

We maintain a constant awareness of where Diamond Star Trading FZC stands in order to provide solutions that offer both mobility and speed to connect with our clients.

By blending the power of trust, information, quality, mobility, and contributions, we create connections with our clients, between people, and with society and our stakeholders.

Welcome to DS Group of companies!

As you navigate our profile, I hope you learn more about the qualities that make our company an outstanding provider of essential services and a wonderful place to build a career.

We have earned the trust and respect of our clients for one simple reason—we have great, hardworking and reliable people. They are experts in their fields. They bring a strong service ethos to everything they do. They take pride and ownership in the jobs they do. We bring passion, pride and experience together to deliver services with a human touch.

At DS, we have earned a reputation for quality and flexibility, assisting our clients carefully and professionally to deliver the services they need efficiently effectively, ensuring that we truly make a difference.

We have only one objective: to ensure our clients mission objectives are achieved with the highest level of capability and assurance, and at the lowest possible cost. Our methodology ensures that vital programs are delivered on time and in budget. DS's clients come to us with confidence that we have the expertise to complete any task and offer the next level of performance.

We have worked in many of the most demanding and secure environments in the region, and we can support our clients wherever their needs require. As part of DS Group, we are able to draw upon the accumulated knowledge of an organization that has set new standards of excellence. We apply the very best international insights to keep our clients at the leading edge.

At DS, Awareness and Transparency are crucial to everything we do, helping to deliver our services and products with humility and compassion, building confidence in our employees and strong conviction in our business association.

DS's corporate culture is defined by a simple set of ethical values that reveal how we operate every single day – Trust, Care, Innovation, and Pride. They reflect how we interact with others, our colleagues, and our communities. We hold each other to these values, creating a company we can all be proud to work at.

I hope this provides you with a few reasons to get to know DS better. Whether you are a potential customer, a small business partner, or a future employee, we look forward to finding out how we can work together to bring our quality services to life for you.
